

## *Tiki Island*

Tiki Island was created in the 60's around a nub of land known as Wilson's Point. Initially it was primarily a fishing camp but as more people discovered this quaint island it quickly grew to house vacationers and eventually turned into the enchanting village it is today. Tiki Island is minutes away from Galveston, Texas; close enough to enjoy the popular shops, beaches, and restaurants but far enough to flee the confined spaces of city life. Tiki Island Yacht Club provides you with immediate water access while ensuring you are treated with the same standard of excellence that all our valued YCOA guests are accustomed to receiving.
